

WITHOUT US, NOTHING WORKS WELL.  
ALMOST NOTHING.

We cannot claim credit for the fascination with Formula 1 racing or the wonderful feelings you experience at a great concert; however, you will often find OXEA products in the fuel for racing cars, in car body paints, in the many plastics used in sound engineering, and in DVD and Blu-ray discs. OXEA is one of the world's largest manufacturers of oxo products and is Number 1 in the Merchant Market. We are economically sound and continually growing – with a strong environmentally green conscience and a respect for culture values. With approximately 1400 employees, we offer you a working environment that includes a streamlined hierarchy and with it, a wide variety of responsibilities that will challenge you professionally and provide opportunities to advance your career.

## Regional Supply Chain Planner – Intermediates

Houston

### GENERAL ROLE OF POSITION:

The Regional Supply Chain Planner is responsible for the successful implementation of OXEA's Sales and Operations Plan (S&OP). This position aligns supply with customer demand by coordinating the physical flow of materials through OXEA's manufacturing and distribution network.

**MAJOR ACTIVITIES AND PRINCIPAL RESPONSIBILITIES:** ◦ Executing the results of OXEA's S&OP process ◦ Communication of the plan to all functional areas of the company ◦ SAP Supply Chain Management (raw material, production, resupply, sales) ◦ Planning and coordinating the daily production plan with the manufacturing sites ◦ Monitoring Sales versus Forecast ◦ Maintaining target inventory levels at all locations (resupply planning) ◦ Executing product exchanges with co-producers ◦ Maintaining SAP, PR3, MRP data for supply and inventory ◦ STO creation and monitoring ◦ Product ATP/Allocation release ◦ Inventory balance management and reconciliation ◦ Assigning of optimal ship point for customers and terminals ◦ Participation in the marine vessel nomination process.

**REQUIRED QUALIFICATIONS:** ◦ Bachelor's degree in a related field ◦ 1 - 2 years of relevant experience ◦ Proficient in SAP and Microsoft Excel ◦ Results oriented ◦ Solid business acumen, analytical, organizational, and problem-solving skills ◦ Excellent communication and

data interpretation skills ◦ Able to build and maintain strong relationships and networks ◦ Demonstrated ability to work in a fast pace environment ◦ Capacity to learn and develop new skills quickly to adapt to change.

**DESIRABLE KNOWLEDGE/SKILLS/ABILITIES:** ◦ 3+ years of relevant experience in a chemical/petrochemical industry business ◦ Strong people and organizational skills – ability to facilitate consensus decision making across multiple business functions ◦ Analytical independence – develops innovative ways to manage their work using their own knowledge and available resources ◦ Business minded – understands the business impact of the decisions made in the interest of satisfying customer's expectations ◦ Six Sigma and Lean Sigma are a plus.

All candidates are invited to participate regardless of race, sex, age, color, national origin, marital status, religion, disability or veteran status and any other criterion prescribed by law.

This position requires that the applicant be authorized to work in the United States.
